SMART IP SOLUTION

Super Starlight · Color Maker · Turbo AI
EWarning · Face Recognition · Fever Detection

About Tiandy

Founded in 2004, Tiandy Technologies is a world-leading intelligent surveillance solution and service provider positioned in full color full time, ranking No.7 in the surveillance field. As a world leader in video surveillance industry, Tiandy integrates AI, big data, cloud computing, IoT and cameras into people-centric intelligent solutions. With more than 2,000 employees, Tiandy has over 60 branches and support centers at home and abroad.

With strong and highly-capable R&D team as the core of our company, we are being the first in the industry to put forward the “Starlight” concept in 2015, which we applied into IPC to take sharp and colorful image in static scene of 0.002 Lux. Then we improved the “Super Starlight” cameras with exclusive TVP algorithm to capture image in the static scene of 0.0004 Lux in 2017 and then in the dynamic scene of 0.0004 Lux in 2018 when we completely launch the Star device line that consists IPC, PTZ and Panoramic series. Now, with user-friendly self-developed GUI, “Easy7” VMS and “EasyLive” mobile APP, we offer cost-efficient products and project-based products including 2MP to 16MP camera, 4X to 63X PTZ camera and 5ch to 320ch NVR, supporting milestone and patriot. Fortified by our advanced SMT production line and strict quality control system, we are able to provide 8 million pieces of IPCs with lower than 1% defect rate per year. With all these efforts, we are also the first in the industry to be awarded national famous brand. Besides, we are certified CMMI5, draft 25 industrial standards, enjoy ONVIF full membership and acquire over 500 product design patents and software copyrights.

We pursue high-quality products and develop various industry solutions, ranging from intelligent neighbourhood, intelligent traffic system, intelligent education, financial system, to water resource engineering etc. Now, our customers are over 60 countries and our products and services are applied in over 500 smart cities as well as in Davos Forum, London Heathrow Airport and the World Cup in Brazil etc.. We focus on developing a reliable cooperation platform to our partners and promise our customers a safe smart life with the mission of “Vision for World”. Whatever the requirements, Tiandy will always be able to find a way to meet your needs.

Less False Alarm

Color Maker

Combined with large aperture and large sensor, Tiandy Color Maker technology enables camera to obtain large amount of light in low light environment. Even at totally dark nights, cameras equipped with Color Maker technology can capture vivid color image and find more details in scenes with the help of warm lights illumination. Color Maker technology makes it possible for camera to achieve the goal of full-time full-color.

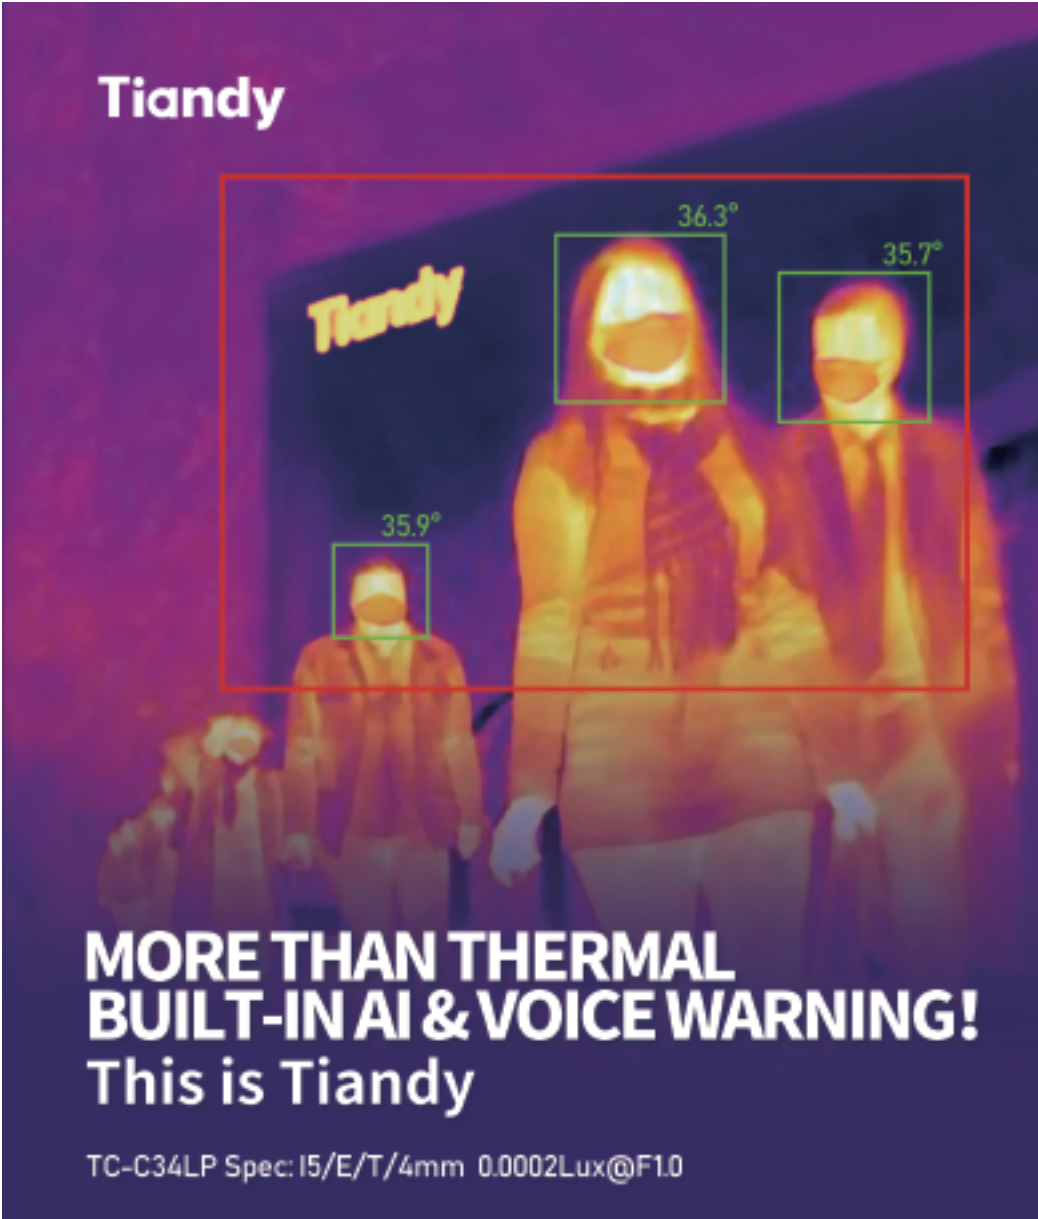

Turbo AI

Tiandy dedicates itself to popularizing AI intelligent functions. Tiandy Pro series cameras, all of which are equipped with AI chipsets, support face capture mode and up to 16 kinds of VCA intelligent analysis. Part of them even go further and support human/vehicle classification function based on deep learning algorithm, which improves the detection accuracy and reduces false alarm rates. AI chipset not only tremendously energizes product detection ability, but also allows information processing accelerating.

Fever Detection

Supports optical and thermal bi-spectrum image
Vanadium Oxide Uncooled Focal Plane Arrays
Thermal Resolution 256×192, output resolution up to 1280×960@25fps
Measure Accuracy ±0.5°C, (±0.3°C with blackbody)
Detection distance 0.5~3m
Optical Resolution up to 2560×1440@25fps
Optical Min. illumination Color: 0.0002Lux@F1.0
Built-in Mic& Speaker

EWarning

Based on AI deep learning, EWarning is the combination of light warning and audio warning, achieving the effect of prevention, mid-way intervention and post-event investigation. It can precisely differentiate vehicle from people, and warn people or vehicle respectively, thus increasing the accuracy and availability of warning compared with traditional OpenCV.

TVP

Transcendent Video Processing algorithm uses low-light enhancement algorithm to not only allow more light to enter the camera in low illumination scenes, reduce noise, improve overall picture brightness, but also weaken excessive bright light, and avoid over-exposure of single pixel. So cameras can be adapted to more occasions like traffic road or entrance and exit.

TVP SUPER STARLIGHT

- Sensitivity 85% ↑
- SNR 25% ↑
- No trailed image of moving object

Super Starlight

Highly sensitive star-level sensor, in combination with time and space bilateral noise reduction technology, provides excellent image quality even in so low illumination as 0.0004 Lux without trailing.

DEVELOPMENT OF STARLIGHT

Great White Shark

HIGHLIGHTS

- 1/1.8 inch CMOS sensor
- Long vari-focal: 10-47mm
- Up to 3840X2160@30fps
- Face capture/intelligent monitoring mode
- Full-time Full-color: 6 warm lights, up to 45m

5MP Video Structure AI Dual PTZ Camera

TC-A35555 Spec: 0/A/2.8-12mm/9-54mm

- Dual lens linkage capture
 - 5MP bullet and 5MP speed dome
 - Four warm lights, six IR LEDs array
 - Dual speaker / Dual MIC
 - Driven by deep learning algorithm
- 4T plus 1T powerful processing
 - Face Capture
 - Smart surveillance
 - Face/Human Body/ Vehicle/Non-motor Vehicle Metadata
 - Built-in GPS/BDS: Dual vari-focal model supports

Panoramic Laser PTZ

HIGHLIGHTS

- 180° Panoramic view
- Auto-tracking Early Warning
- Laser: 500m night vision
- 44x ultra optical zoom
- Gyroscope, Stabilization

Long Distance 500m
Auto-tracking Early Warning

VMS: K2000

K2000: TC-S36424 Spec: T/4U

K2000 is the integration server that supports up to 50 face recognition cameras connection. The internal complete software system provides up to 24 HDD disks storage. Equipped with higher bandwidth, video storage capability has been increased to 256 channels in H.265. The K2000's space-saving design can greatly save customer's deployment costs and provides unimaginable convenience when it comes to transportation. Therefore, K2000 ranks as the best solution for small and medium projects.

Face Recognition Terminal

TC-P3010

As the way to ensure costumer's convenience, face recognition terminal aims to realize touch-free access control. With the 8-inch LCD touch screen, the management of the user's face library is directly manipulated in the display screen. 2MP wide-angle lens and excellent performance processor corporate to provide rapid and accurate face recognition results. Based on security considerations, multiple authentication modes are added to the terminal which secures the data. Instant reaction saves customer's time costs. All the safety concerns can be resolved by this terminal.

Decoder

TC-N349A TC-N3416A

Tiandy Decoder is qualified with extraordinary decoding capacities. This series of decoders support two modes: 9-channel output and 16-channel output. Decoders support up to 12MP resolution and 256-channel decoding channel display. And the decoding bandwidth climbs to 400 Mbps which is capable to satisfy user's and project's demands. Tiandy encapsulation format, RTSP and Onvif protocol are supported in devices which ensures the compatibility with third parties.

Easy7 Smart Client Express

Easy7 Smart Client Express is an independent video management software based on macOS (64bits) and Windows (64bits) Operation system for Tiandy IP cameras, PTZs, NVRs, XVRs, decoders etc. Up to 200 IP devices or 512 channels can be connected to Easy7 Smart Client Express. It supports functions like preview, playback, alarm, two-way audio, PTZ control etc. and configuration like device management, user management, storage, event etc.

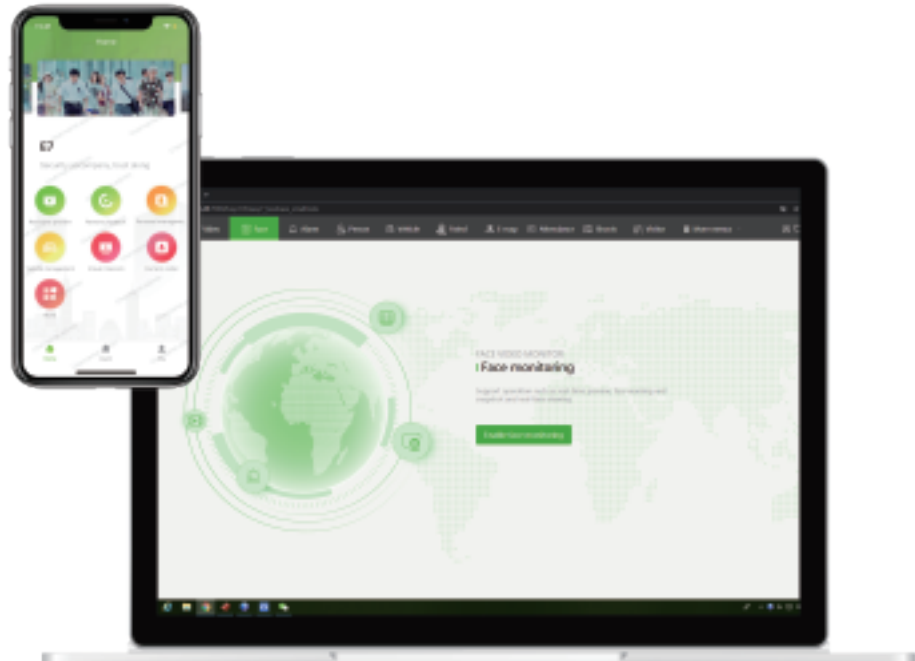

Easy7 Smart Client provides multiple solutions like the people counting solution, fever detection solution, face recognition solution for small and medium scenarios with friendly using experience and intuitive data report.

OS Requirement	Windows 7/10 (64bits) macOS 10.12 or above
Supported Devices	IPC, NVR, XVR, PTZ etc.
Max. Connected Devices IP Number	200
Max. Connected Devices Chanel Number	512
Max. Connected P2P Devices Number	512
Max. Windows Division Mode for Live View	64
Max. Windows Division Mode for Playback	16
Max. People Counting IPCs under a zone	64
Languages	17
Functions	Preview, Playback, Equipment Management, Alarm Configuration, Alarm Management, System Configuration, User Management, Data Statistics, Intelligent Search, Operation Logs

Easy7 Central Management System

Easy7 Central Management System software (CMS) is the core part of the security surveillance platform, which is powerful, scalable and reliable. Easy7 CMS supports distributed deployment based on CentOS and is capable of managing up to 300,000 surveillance points. It provides a wealth of functions such as video monitoring, alarm query, face surveillance, personnel query, vehicle query, event management, storage management, E-Map, device management, attendance management, flow management and system settings. Easy7 CMS can be applied to medium and large surveillance solutions. Easy7 CMS can be easily managed via Chrome browser or mobile APP E7 on both Android and iOS.

SUCCESSFUL CASES

A FAMOUS UNIVERSITY IN GYEONGBUK, SOUTH KOREA

At the end of 2020, a famous university in Gyeongbuk, South Korea, selected Tiandy Thermal Camera & Tiandy NVR to be installed in the key entrances and exits of the university to prevent COVID-19. Tiandy products have been well received after being installed and debugged for the customer.

2018 RUSSIA WORLD CUP

More than 2000pcs Tiandy starlight varifocal cameras were installed in this project to ensure the personal safety. Tiandy HD IP surveillance system supports S+265 which can help the user save more than 50% storage space. It transfers the 1080p under 800K bandwidth with clear image. IP67 and TVS6000V ensures the good quality and working temperature is fit for -40 °C to 60 °C.

SUCCESSFUL CASES

COMPLEX SHOPPING MALL WISHCO IN THAILAND

WhisCO shopping mall is a very popular shopping mall with many visitors daily. Avoiding too many people in the same place, protecting the safety of customers and keeping every property in a secure condition are challenges for management. Tiandy surveillance with super starlight function, smart analysis and warnings is applied in this system. Keep every customer safe both in daytime and night. Alarm will be triggered when too many customers are in a same area and when people enter restricted area.

QUEENSLAND COAST

Tiandy Ultra Series PTZ was selected to protect one of the most exclusive houses in Queensland, Australia. By combining audio alarm and laser tracking of Early Warning system with Auto Tracking, this camera offered the perfect solution to protect the house owners and deter any early level of threat.

SUCCESSFUL CASES

RABATI CASTLE PROJECT IN GEORGIA

Georgia is now home to a DLB 5-90n/5-15n surveillance network. Tiandy video surveillance systems were installed without damaging the aesthetic beauty of the castle by using the wireless network devices to achieve stable transmission of video stream.

AL REEF VILLAS PROJECT IN UAE

Al Reef villas comprise over 2300 villas, over 1800 apartments in a mix of studios, a four star hotel and a retail area. Over 200pcs of Super Starlight cameras and 10 NVRs are installed around the whole community. The camera used at commercial area shows great stability and performance at all the night and day time. Tiandy will continue to provide integrated surveillance solution for this upcoming project.

SUCCESSFUL CASES

JORDANIAN CITY OF PETRA IN MIDDLE EAST

Petra(بَارْتَبَلْا), originally known to its inhabitants as Stone city, is a historical and archaeological city in southern Jordan. In the entire tourism area of Petra city, 53 Tiandy PTZ cameras were installed. This link is a live image of Tiandy Super Starlight PTZ camera Ultra series model TC-NH62441AA-G. Camera was set up on the high point overlooking the Petra city, to make it possible for visitors from all over the world to see its view.

5-STAR HOTEL IN EGYPT

More than 200 cameras are installed in this project. Products with very high performance, low investment and large returns ensure both operational safety and cost saving. Low illumination, voice speaking, white light, space-saving, intelligent analysis, 24 hour-working , all the functions are combined together to ensure the safety of customers' lives and property and to provide evidence when emergency occurs.

IPC Lite

Lite line as primary products line is cost-effective and easy-to-install, which can be applied to retail stores, warehouses, parking lots and parks, etc. Lite series provides value-added interfaces, such as built-in mic, SD card slot and reset button in hardware, supports two most frequently used VCA functions, tripwire and perimeter. Lite series provides entry-level intelligent experience. Now fixed cameras with resolution from 2MP to 8MP and motorized cameras with 2MP and 5MP are available for customers. In addition to starlight and super starlight cameras, newly released Color Maker cameras offer a 24 hours full color image.

Key Features

- Starlight/Super Starlight/Color Maker
- Built-in Mic/SD Card Slot/Reset Button
- Supports Tripwire and Perimeter
- ONVIF Profile S/T/G
- S⁺265

IPC Pro

Pro Line, as the prime product line of Tiandy, features Starlight/Super Starlight, face capture, advanced intelligent analytics, multi-interface, plugin free and can be applied to small and medium business and various industry projects. 2MP/4MP/5MP/8MP bullet camera, dome camera and turret camera, with fixed or motorized lens, are all available in pro line.

Key Features

- Plugin Free
- Starlight/Super Starlight/Color Maker
- High Frame Rates
- Built-in Mic/Audio I/O/Alarm I/O
- Face Capture Mode
- Video Analysis

IPC Ultra

Ultra-Line is the high-end product line, in which 2MP/5MP/8MP bullet and dome camera with fixed/varifocal lens and 12MP fisheye camera are available. Ultra line, equipped with“Super Starlight” technology, early warning function as well as video analytics, is widely used in medium and large business projects.

Key Features

- EW
- Human/Vehicle Classification
- Built-in Mic& Speaker
- Super Starlight 3.0
- S+265
- Video Analysis
- Mic in/Audio in

Thermal Camera

Tiandy thermal camera adopts uncooled vanadium oxide focal plane detector, which has high temperature measurement accuracy and good imaging effect. Combined with dual lens, thermal and optical lens, and Tiandy's advanced algorithm, Tiandy thermal camera can achieve functions like temperature measurement, fire detection, EWarning and multi-VCA functions and be widely used in airport, station, border, harbor and other occasions with high security requirements.

Key Features

- Thermal& Optical Bi-Spectrum
- Built-in Mic& Speaker
- Supports EWarning
- Video Analysis
- Audio/Alarm I/O

PTZ

The full range of Tiandy PTZ equipped with “Starlight” technology provides high picture quality under low illumination. Due to the redesigned PTZ mechanism, PTZ responds quickly up to 240°/sec, and the preset position is more precise. The Ultra Series PTZ supports AEW and is based on the AI deep learning algorithm for precise classification of human/vehicle shapes. When the alarm is triggered, the device links the voice, white light and laser to achieve the warning function.

Key Features

- Defog
- Super Starlight
- AEW
- Human/Vehicle Classification
- Built-in Mic& Speaker
- Video Analysis

NVR Lite

Tiandy Lite N NVR provides the most cost efficient choice for those whose main market is distribution channels. Where IP cameras at 2MP resolution are popular, Lite N series products will be the best choice. Lite K series NVR also faces to distribution market. Models in Lite K series provide a most cost-efficient true 4K system, they are the most suitable products for regions, where IP cameras at 5MP or 8MP resolution are popular. Lite H series NVR faces to small business market. Powerful ability of this series could cover most of requirements in small projects. The price of the Lite series pays for the performance of the Pro series.

Key Features

- S⁺265
- Lite K 1×8MP decoding
- Lite H 4×8MP decoding
- EWarning
- P2P connection

NVR Pro&Ultra

Pro & Ultra series faces to SMB project. It could be used as an item, which could control the bid due to their powerful index of interfaces and bandwidth. Tiandy NVR provides 25% more access than regular products, which enables plug and play, automatically adds IPC, quickly plots without configuration and supports one button to enable S+265 to save 50% of storage space than H.265. In addition, it automatically matches the screen's optimal resolution, and supports up to 64 channels of simultaneous preview and 16 channels of 1080p video playback.

Key Features

- **S+265**
- **Pro 4×8MP decoding**
- **EWarning**
- **Plug and play**
- **P2P connection**

AI NVR

Based on deep learning technology, Tiandy NVR has face recognition function for cameras with/without facial capture function, which is widely used in hospitals, gas stations, supermarkets for attendance and personnel identification. With Tiandy face capture camera, multi-channel face recognition can be achieved with higher accuracy. Tiandy offers a variety of face recognition devices. The 5-way AI NVR provides a cost-efficient face recognition solution. If you need a higher performance face recognition NVR, there are up to 16 pictures steam AI NVRs to choose.

Decoder

Tiandy Decoder is qualified with extraordinary decoding capacities. This series of decoders support two modes: 9-channel output and 16-channel output. Decoders support up to 12MP resolution and 256-channel decoding channel display. And the decoding bandwidth climbs to 400 Mbps which is capable to satisfy user' s and project' s demands. Tiandy encapsulation format, RTSP and Onvif protocol are supported in devices which ensures the compatibility with third parties.

Key Features

- 9 channels & 16 channels options
- Up to 12 MP resolution
- 400 Mbps decoding bandwidth
- S+265 compression
- Video wall display decoding

Face Recognition Terminal

As the way to ensure costumer's convenience, face recognition terminal aims to realize touch-free access control. With the 8-inch LCD touch screen, the management of the user's face library is directly manipulated in the display screen. 2MP wide-angle lens and excellent performance processor corporate to provide rapid and accurate face recognition results. Based on security considerations, multiple authentication modes are added to the terminal which secures the data. Instant reaction saves customer's time costs. All the safety concerns can be resolved by this terminal.

Key Features

- 8-inch LCD touch screen
- Touch-free control
- 2MP wide-angle lens
- 0.3s reaction time
- Stand-alone operation
- 50000 cards and 10000 face picture recording

Model	<div>TC-P3010</div>
Operation System	Embedded Linux System
LCD Screen	8-inch LCD Touch Screen Resolution: 1280×800
Camera	2MP, true WDR, Wide-Angle Lens
1:N Face Recognition Duration	≤0.3s/Person
Face Recognition Accuracy Rate	≥99%
Face Recognition Distance	0.3 m to 2 m
Face Picture Capacity	10000, JPG
Card Capacity	50,000
Event Capacity	100,000
Audio Output	1×RCA
Communication Mode	10/100 Mbps Self-Adaptive Network Interface
Interface	RS-485×1, Wiegand×1, USB×1, Sensor×1, Exit Button×1, Tamper×1, Alarm Input×2, Alarm Output×1, Door Lock×1
Power Supply	12VDC/2A (Centralized Power Supply)
Working Temperature	-20 °C ~ 60 °C
Working Humidity	0% to 90% RH
Installing Method	Wall Mounting (With/Without Gang Bracket)
Dimensions	240×132×33mm (9.45×5.20×1.30inch)
Application Situation	Indoor/Outdoor
Protection Level	IP65
Power Consumption	≤14W

VMS: K2000

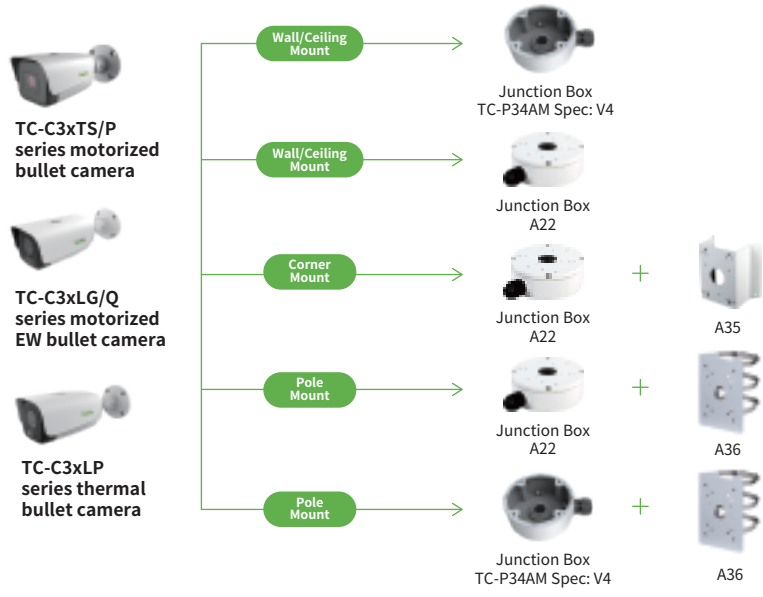

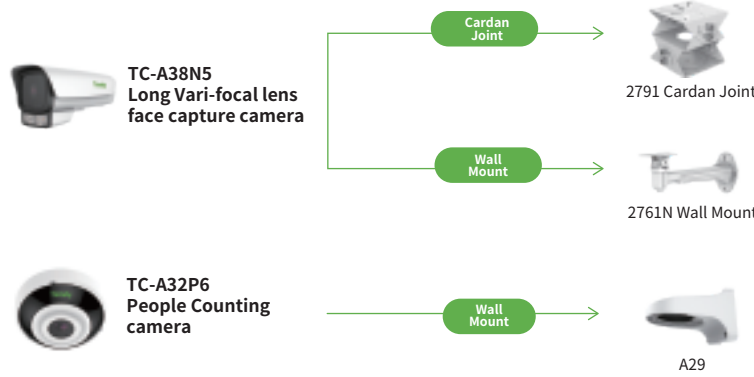

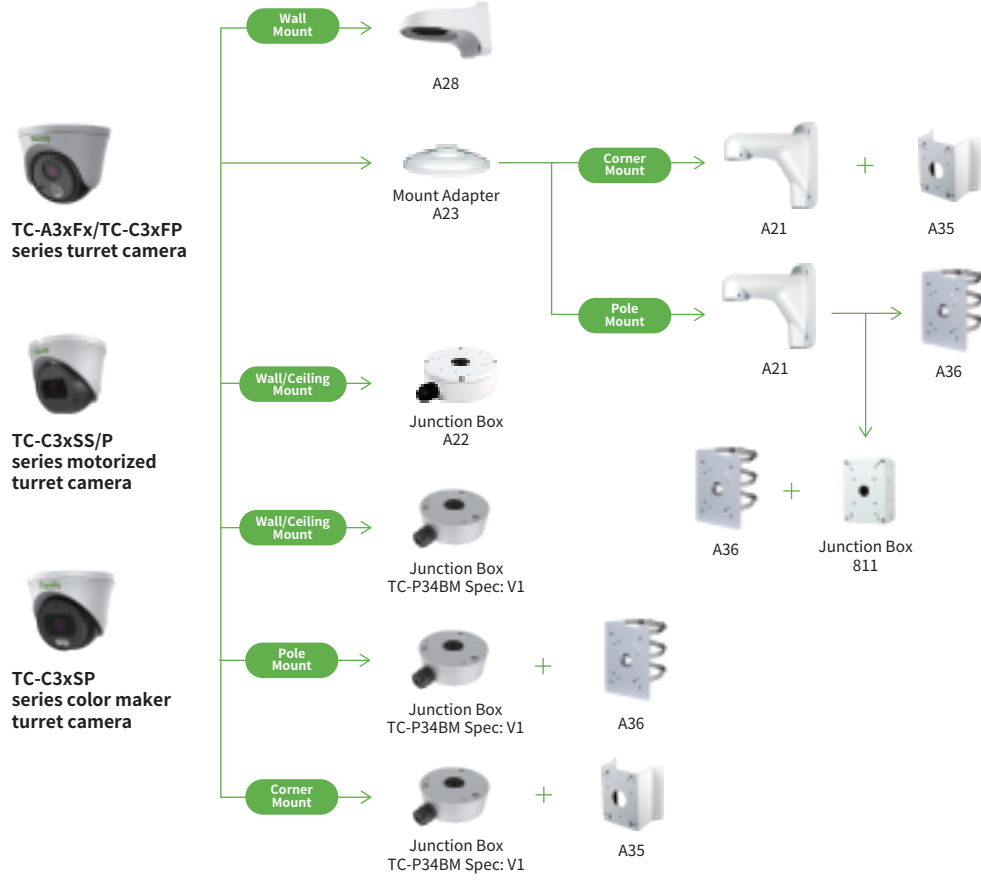

K2000 is the integration server that supports up to 50 face recognition camer-as connection. The internal complete software system provides up to 24 HDD disks storage. Equipped with higher bandwidth, video storage capability has been increased to 256 channels in H.265. The K2000's space-saving design can greatly save customer's deployment costs and provides unimaginable convenience when it comes to transportation. Therefore, K2000 ranks as the best solution for small and medium projects.

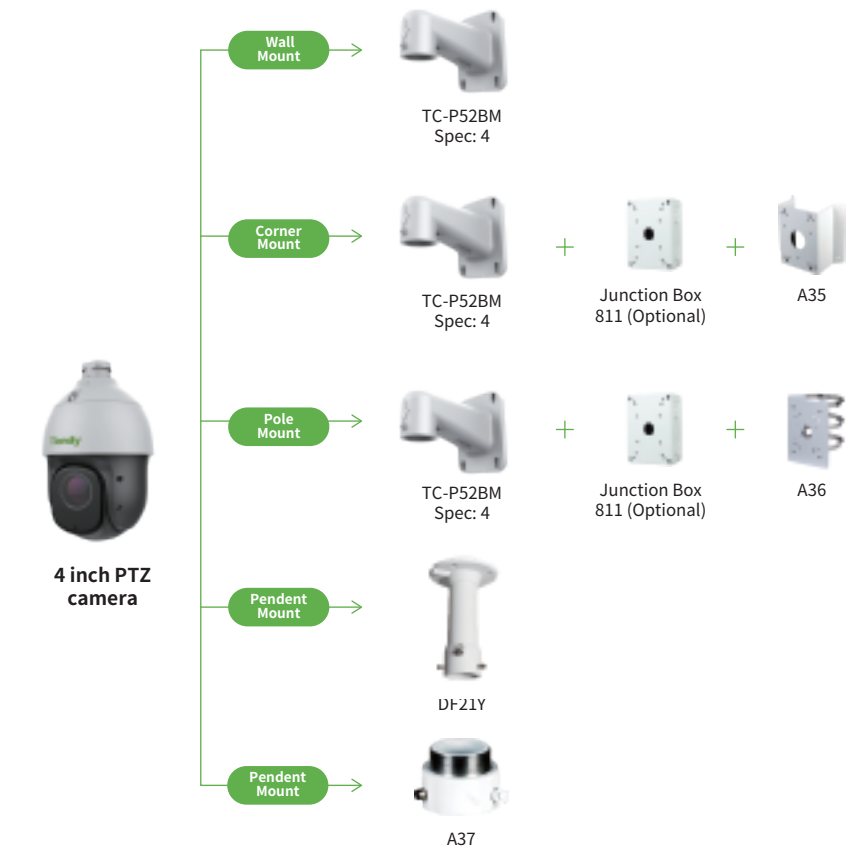

Key Features

- 24 HDD slots
- 256 recording channels
- Intel CPU
- 10000 persons information storage
- Integrated with VCA

Model	<div>TC-S36424 Spec: T4U</div>
