Smart Intercom Technologies-AI

Leading AI Technologies

Facial recognition door entry

Your face is your identity. The underlying anti-spoofing liveness detection algorithm makes it hard to be fooled by photos or videos.

Offline voice control

Use your voice to control indoor monitors. The voice data are processed directly on the device, which is faster and securer compared with an online method.
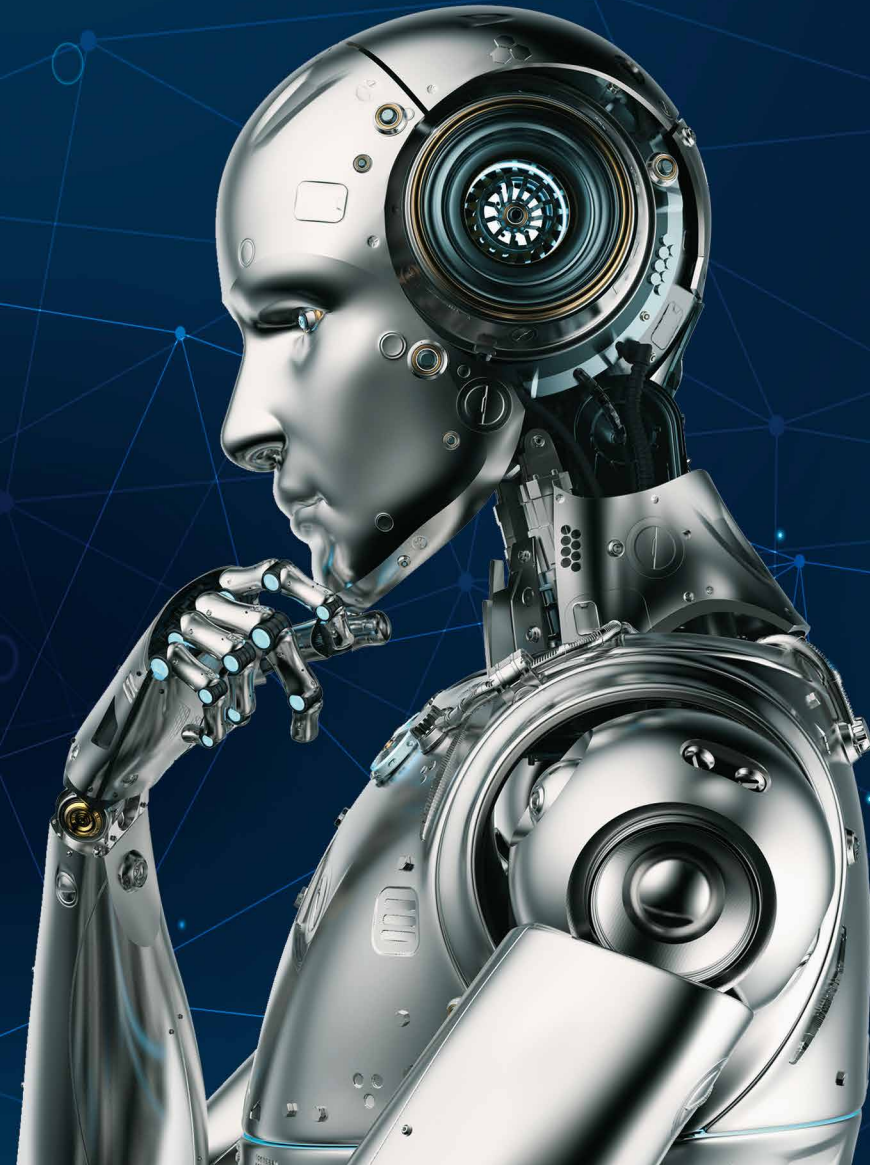

Fall detection

Exploring the synergy of image recognition technique and neural network machine learning, Akuvox empowers intercoms to increase in-home safety for older people.

Smart Intercom Technologies-Cloud

Smart Intercom as a Service (SIaaS)

Easy-to-use intercom app for end users

- Video calling and remote door unlocking
- Video preview and live view
- Issue time-limited QR code keys and guest PINs
- Door unlocking via Bluetooth
- Offline push notification

Productivity boost for property managers

- Manage all properties centrally and remotely from a web browser, for example creating new app accounts for residents
- Access to time-and-date stamped photos of all door entries
- Assign time-limited PINs to delivery people
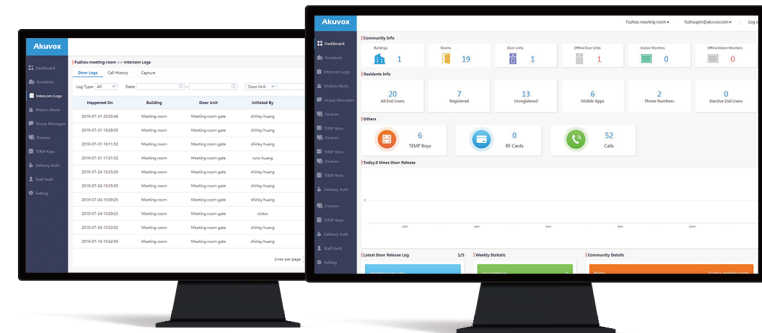

Smart Intercom Technologies-Android

Home Automation Integration

The openness of Android enables Akuvox indoor monitors to integrate an application for automated home control. With only one screen, homeowners can enjoy both home automation services and intercom features.

The easy-to-navigate Android UI offers great user experience. It is also open to deep customization to meet diverse requirements.

Akuvox smart intercom has been proven to be fully interoperable with top home automation brands, including Control4, Zipato, RTI, iRidium, Core and LifeSmart. The list is ongoing.

Smart Intercom Technologies-SIP & Security

Better Communication

Akuvox intercom is based on SIP, a universal IP communication protocol, allowing to build a large communication system.

- Premium audio and video quality
- Communication between any SIP-supporting systems
- Work with mobile phones and landlines
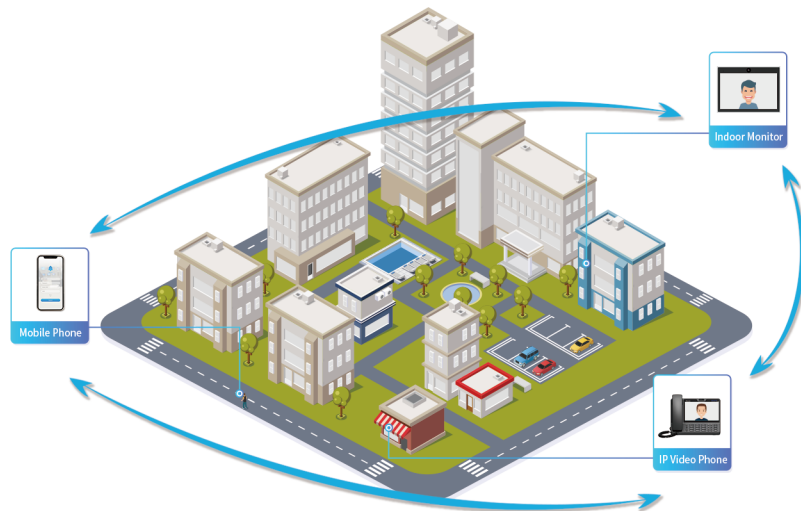

Greater Security

Smart intercom is able to not only connect with various alarm sensors like smoke detectors for greater home security, but also communicate and interact intelligently with common security systems including video surveillance, VMS and building alarm systems.
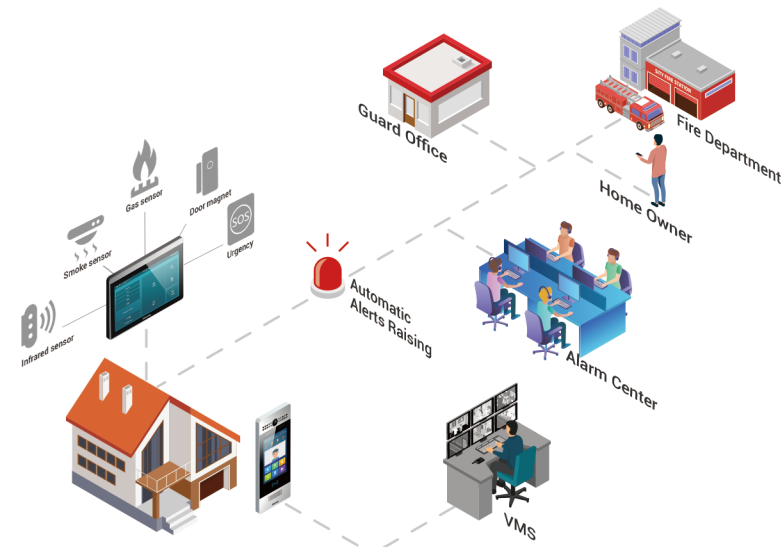

Welcome to Smart Intercom Family

Akuvox R29C

World's First Facial Recognition Android Doorphone

- 7" capacitive touch screen supporting glove mode
- Aluminum panel
- Dual camera: one 120° wide-angle 3MP camera with IR and an auxiliary 5MP camera
- Support multiple access control methods: facial recognition, NFC, 13.56MHz and 125kHz access cards
- Anti-cold version (-40 ℃ to 55 ℃) available
- Support plasterboard installation

For on-wall mounting   For in-wall mounting

Akuvox SmartPlus

Cloud-based Intercom App

- Video calling and remote door unlocking
- Video preview and live view
- Issue time-limited QR code keys and guest PINs
- Door unlocking via Bluetooth
- Offline push notification

Akuvox Vfone

SIP Softphone App for Intercom

- Audio/video calling
- Remote door unlocking
- Offline push notification
- Compatible with mainstream SIP servers

Akuvox SDMC

On-premise Software for Community-wide Intercom System Management

- Batch deployment of devices automatically
- Real-time video monitoring
- Access control management
- Messaging and ad pushing

Akuvox FacePro

PC-based Software for Facial Data Management

- Automatic R29C device search and connection
- Facial image import or facial data capture
- Addition, modification and deletion of facial data for R29C
- Facial data syncing between R29C and the software
- One-click facial data sharing between different R29Cs

Akuvox Sight

PC-based SIP Softphone for Akuvox Intercom

- Multi-screen video monitoring
- Remote door unlocking
- Audio or video calling with intercom

Smart Intercom Solution
for RESIDENTIAL

As the standard of living improves, there are higher security and convenience requirements for modern residential living. This has posed new challenges to traditional intercom, which are monofunctional and antiquated, or simply don't function.

Highlights of Akuvox Smart Intercom Solution

- Build a large community-wide communication system
- Work with mobile phones and landlines
- Integrate home automation, video surveillance and property management systems
- Control elevator to allow visitors to access the authorized floor only or send an empty elevator to an assigned floor

- App-based features, including video calling, remote door unlocking, alarm push notifications and messages from the property management
- Remote system maintenance via a web browser

Smart Intercom Solution

for ASSISTED CARE & HOSPITAL

As the worldwide population ages, the healthcare system of every country faces significant challenges. Safety, trust and security are the key contributing factors to the health and wellbeing of older people, whether in their own homes or being taken care of in a care home.

Highlights of Akuvox Smart Intercom Solution

- Converge latest technologies, including SIP, Android and AI
- Easy-to-use system specially designed for older people
- 100% transmission of SOS signal to service centers with < 10 seconds SOS signal delay
- Telecare pendant for making emergency calls and unlocking doors remotely via RF
- Connect with various alarm sensors, such as door magnet and smoke detector, for greater home security
- Remote operation and maintenance of a large number of devices
- Easy to upgrade the system with new features

Solution Overview

Seek Help in an Emergency

Christina, help, **help, help!**

Use the voice to issue an emergency call

Use a telecare pendant to make an emergency call

Automatic alerts raising when an alarm sensor is activated

Akuvox indoor monitor

24-hour service center

Designated family members

Convenience for Daily Life

Use a telecare pendant to unlock doors for visitors remotely

Answer the call from a door phone remotely via a Bluetooth speaker

Smart Intercom Solution
for PUBLIC SPACE

With terrorism and violence on the rise, the issue of
safety, security and real-time information gains signifi-
cance. To protect people, assets and property in the
public space, there is an urgent need for advanced
intercom technologies to react to situations in progress
and manage everyday operations, public events, and
emergency situations.

Highlights of Akuvox Smart Intercom Solution

- Premium speech quality in any situation
- Vandal-resistant body with IK10 rating
- Integrate with video surveillance systems
- Direct communication line to alarm centers or security guards on patrol

Solution Overview

Alarm center: R48G
- Video communication
- Video surveillance

Roaming guard with mobile app

Public space: E21V
- Emergency calling
