ABOUT AKUVOX

## A Leading Innovator of Smart Intercom

SIP · Android · AI · Cloud · Security

Why integrating with smart intercom

- **40%+** households with existing home automation services have strong demand of **security**.

- Generally, we need to use two panels to control the smart home and intercom systems respectively, which brings inconvenience to end-users.

Why integrating with smart intercom

Bring end-users much safer and more convenient solutions !

- Add access control to smart home systems ;

- Control Multiple devices with **only one panel or one app**.

How we can work together

Akuvox Intercom System

Outdoor Unit
